

# COMPANY INTRODUCTION

## 公 司 简 介

Ningbo Precision Machinery Co., is a JV enterprise which is very specialized in precision metal fabrication manufacturing since 2005 and covers about 4000 square meters. NB Precision supplies value added fabrication services include alloy steel, stainless steel, aluminium laser cutting, forming, milling, drill/tapping, welding, and assembly, and our partner network allows NB Precision to provide plating, powder coating, polishing, heat treating, and other finishing services. From start to finish, NB Precision is prepared to handle all your contract manufacturing requirements.

宁波普瑞晟制造机械有限公司是一家自 2005 年以来专注于精密金属制造的专业合资企业，占地面积约 4000 平方米。宁波普瑞晟提供的增值制造服务包括合金钢、不锈钢、铝材的激光切割、成型、铣削、钻孔/攻丝、焊接和装配等，我们的合作伙伴网络使我们能够提供电镀、粉末涂层、抛光、热处理及其他表面处理服务。从始至终，宁波普瑞晟都准备满足您所有的合同制造需求。

Based on the professional metal processing capability, advanced production equipment, high quality control, extensive overseas customer's network, we are featuring us as an export-oriented base of sheet metal products, house appliance hardware, industrial parts and components, etc. We provide our B-B service start from R & D, production and delivery.

凭借专业的金属加工能力、先进的生产设备、严格的质量控制以及广泛的海外客户网络，我们致力于打造一个以出口为导向的金属板材产品、家用电器配件、工业零部件等产品的生产基地。我们提从研发、生产到交付的全方位的B-B服务。

# PRODUCTION CAPABILITY

## 生产能力

- 1. Cutting:** 5 axles dynamic water jet cutter, can process iron, copper,aluminium even glass and stone, capable for thick plate.  
6KW laser cutting machine with dual decking, use for normal steel and stainless steel products.  
切割: 5轮式动态水射流切割机可以切割各种厚度的铁/铜/铝板甚至可以切割玻璃和石板。  
6千瓦双工作台激光切割机, 主要切割钢板和不锈钢产品。
- 2. Punching:** 11 punching machines from 15 to 120 tons punching including 2 automatic machines.  
冲压: 11台15-200T冲压设备, 其中2台为全自动。
- 3. Drilling:** 10 drilling machines.  
打孔: 10台打孔机。
- 4. Welding:** 5 including 3 laser welding machine, using jigs to control dimensions, strong in stainless steel products.  
焊接: 5台焊接设备, 3台激光焊接, 其他为氩弧焊和保护焊。
- 5. Bending:** 2 bending machines 120 ton fold capacity, shearing machine, saw machine, pipe cutter, etc.  
折弯: 2台120T折弯机, 剪切机、锯切机、管材切割机。
- 6. Assembly:** have one 25 meters length assembling line and 5 workers are specialized in assembly and packing work.  
装配: 25米组装工作台, 5个专业组装包装工人。
- 7. Mould making:** the moulds are made inside factory which can control the quality well.  
模具制作: 模具工厂内部制作可以很好的控制质量。
- 8. Surface treatment:** Zinc plating, Powder coating, Electropolishing, Electrophoresis are handled by our partners.  
表面处理: 镀锌, 喷塑, 电解抛光, 电泳等由合作伙伴完成。
- 9. Laboratory:** have salt spray testing equipment, dimension measure equipment, thickness measure equipment.  
实验室: 盐雾测试设备, 尺寸厚度等测量设备若干。
